## Letter of Declaration

I hereby declare that we - Danphone A/S, Klokkestoerbervej 4, DK-9490 Pandrup, Denmark - are the manufacturers of the **Futronic MKII Test Box**.

I also declare that the above mentioned test instrument is used for the testing of maritime communications and navigations equipment and conforms to the requirements given in relevant articles of the European EMC Directive 2004/108/EEC.

The built-in battery is a rechargeable, valve regulated, sealed Lead-Acid battery classified as "Class 8, Group III UN No. 2800 Battery, wet, non-spillable electric storage, no limit, special provision A48, A67, A164 and A183" excepted from IATA regulations.

The Futronic MKII test box is permitted as carry-on and check-in baggage on aircrafts, as the battery's voltage and watt-hour rating does not exceed 12V and 100Wh and the battery terminals are protected against short cuts in accordance with provision A67.

On behalf of  
DANPHONE A/S
