Co. Reg. No. 13640378

Quality System
according to
DS/EN ISO 9001:2015

Date: 15. January 2024

I hereby declare that we

Danphone A/S, Tagholm 16, DK-9400 Noerresundby, Denmark

are the manufacturers of the

Futronic MKII Test Box.

I also declare that the above-mentioned test instrument is used for the testing of maritime communications and navigations equipment and conforms to the requirements given in relevant articles of the European EMC Directive 2004/108/EEC.

The Futronic Test Box does not contain any dangerous materials.

The built-in battery is a rechargeable, valve regulated, sealed Lead-Acid battery classified as "Class 8, Group III UN No. 2800 Battery, wet, non-spillable electric storage, special provision A67".

The Futronic MKII test box is permitted as carry-on and check-in baggage on aircrafts, as the battery's voltage and watt-hour rating does not exceed 12V and 100Wh and the battery terminals are protected against short circuits in accordance with provision A67.

If the fuse is removed there is no connection between the battery and the unit.

On behalf of
DANPHONE A/S

Claus Falk
Chief Executive Officer
